

I would urge the FCC to reject the NAB petition to limit Satellite Radio from offering programming on a local level, or at any other level. Currently Satellite is Paid by the consumer, let the consumer dictate what they want to hear or not. The NAB's current terrestrial radio system is paid for by ADVERTISERS, not the consumer. I have subscribed to XM radio because I WANT A VOICE TO LET THE NAB RADIO STATIONS KNOW I DO NOT LIKE THEIR PRODUCT! Do not limit the voice of the consumer by supporting the NAB petition.

Respectfully,
Michael Jurosek
XM Subscriber
